## Settings for Health. Local Action and Justice in a Global Environment. The 7th Nordic Research Health Promotion Research Conference. 18.-20.juni 2012.

Konferansen vil finne sted på Høgskolen i Vestfold, ved Tønsberg ca.1 time med tog sør for Oslo. Høgskolen har et eget Institutt for helsefremmende arbeid og en masterutdanning med over 120 studenter. Forskningsprofilen i Vestfold er rettet mot settings-tilnærmingen, kvalitative undersøkelser og aksjonsforskning.

Settingstilnærmingen er også hovedtema for konferansen. For uten key note speakers på tema vil hvert av de nordiske landene ha en sesjon om status for settingstilnærmingen i sitt land.

Siden masterutdanningen har en viktig plass i Vestfold vil det bli lagt til rette for at ferdige masterstudenter kan få anledning til å presentere posters på sine masterarbeider.
